How to Grow Mushrooms

September 15, 2026 at 6:30 P.M.

Learn how to grow edible mushrooms at home using simple, accessible methods. This workshop covers mushroom varieties suitable for home cultivation, growing mediums, environmental requirements, inoculation, maintenance, harvesting, and common problems. Participants will leave with the practical knowledge needed to begin growing mushrooms outdoors.

Casey E. Doyle is an environmental conservationist, agronomist, and founder of Nourish Our World, LLC. She holds a Master of Science in Sustainable Food Systems. With more than 20 years of teaching and public-speaking experience, Casey translates complex environmental and agricultural topics into practical, approachable information people can use in their everyday lives. Her work focuses on sustainable food production, regenerative growing practices, environmental stewardship, conservation, gardening, and the connections between human and environmental health.
