PROJECT**

**A paranormal lecture for adults
with Dustin Pari**

BLACKSTONE PUBLIC LIBRARY

Dustin Pari returns to our library for another thrilling talk about the paranormal.

“Dustin’s engaging new program explores the enduring legend of the Montauk Project – an alleged series of secret Cold War-era experiments said to involve mind control, psychic research, and inter-dimensional phenomena- and examines how these claims influenced popular culture. Attendees will learn how the concept for the hit television series *Stranger Things* is rooted in the so-called “Montauk Project,” before the story was relocated to the fictional town of Hawkins, Indiana. Blending documented history, conspiracy lore, and television storytelling, the presentation invites participants to consider how government secrecy, 1980s nostalgia, and speculative science converge to create one of modern pop culture’s most compelling mythologies out of one of history’s greatest conspiracies. Bring your cork boards, red ribbons, and pushpins – it’s going to be one wild ride to the upside down!” – dustinpari.com

Dustin is well known for his time spent as part of ‘*Ghost Hunters*’ and ‘*Ghost Hunters International*,’ as well as his appearances on ‘*Destination Truth*’ and ‘*Ghost Nation*.’ Traveling the world in search of answers has given him years of experience and understanding of the unseen realm. Dustin has become sought after not only for his popular paranormal events, but for his motivational and spiritual lectures as well.
